

Sumanasree Aduro

B.Tech Computer Science student seeking data analytics, data science, or full-stack internship and job opportunities.

I bring analytical thinking and hands- on building to teams

Ready to contribute to data,
software, and product-
focused work while continuing
to learn.

Proposal

WHAT I BRING

Job-ready foundations, ready to contribute.

- 01 B.Tech Computer Science student specializing in Data Science at SV College of Engineering, Tirupati, with an 8.1 CGPA.
- 02 Working knowledge of Python, SQL, web development, analytics, and AI technologies.
- 03 Seeking data analytics, data science, or full-stack internship and job opportunities.

Projects that demonstrate practical skills

Evidence of practical work across analytics, databases, web development, and reporting.

01

Student Performance Dashboard

Power BI · SQL · Excel

Analyzed a 3,000-student dataset to track attendance, CGPA trends, and performance in a reporting dashboard.

02

E-Commerce Website

React · MySQL

Built a React-based frontend connected to a MySQL database, demonstrating application and data-layer fundamentals.

03

Stock Market Analysis

HTML · CSS · JavaScript
· Django · MongoDB

Created a web application with a Django backend and MongoDB database, applying full-stack development fundamentals.

01 Data Analytics internship at SmartBridge

Data analytics work using Tableau.

02 Data Analytics internship at CodTech IT Solutions

03 Additional hands-on experience

Full-stack development, college hackathons, and technical seminars supporting continued technical growth.

Experience
that supports
practical
delivery

Proposal

Internships and hands-on work show how I apply technical foundations to practical problems.

Tools I use to contribute from day one

A working toolkit for data analysis, software development, databases, and collaborative problem solving.

BUILD

Web & programming

HTML, CSS, JavaScript, React, PHP, Python, C

WORK WITH DATA

Data & analytics

SQL, MongoDB, Power BI, Tableau, Excel

FOUNDATIONS

Computer science

Data Structures, DBMS, Operating Systems, networking

STRENGTHS

Work style

Teamwork, communication, problem solving, time management, and adaptability

NEXT STEP

Let's work on useful data and digital products
